2014
First Year Info Session
created and presented by UNSW PHYSOC
In case you haven't heard of PHYSOC...

- Events
- Resources
- etc

https://www.facebook.com/groups/unsw.physoc/
http://ugrad.phys.unsw.edu.au/physoc/
http://instagram.com/physoc_unsw
Physoc Room

We also have a room where you can chill at!

Old Main Building RM LG35

Amenities include:

- Fridge
- Drinks ($1 honor system)
- Microwave
- Kettle
- Toaster
- Whiteboard
- Chess board
- Five iMacs
- Physics textbooks
- Past assignments and exams

Advanced Mechanics, Fields and Chaos PHYS3510

- 2012 Final Exam
- 2010 Final Exam
- 2008 Final Exam

- 2012 Midsession Solutions
- 2012 Midsession
- 2008 Midsession

Physoc Room. Go in through door that looks like a fire escape. It is the first door on your left.

(Alternatively, via Naked Lady Lawn, and it will be in front of you, on the right.)

Large Staircase. Go up, and turn left for main Physics office. (room G09)
Course Selection

https://www.physics.unsw.edu.au/current-students/courses
The physics website is currently being updated so there are some broken links here and there. Most of syllabi are here. Most lecturers use this site (or their own) to upload lecture notes, assignments and past papers as opposed to Moodle/Blackboard.

www.phys.unsw.edu.au/phys_current/re_enrolment.html
Re-enrolment info (info on which courses are offered this year).
Using the Handbook

Use handbook from year you started in regards to required subjects
Using the Handbook

Looking up your program and what courses you need to do to graduate

Change to the year you started in

Courses offered each year – timetable.unsw.edu.au also works.
Adv. Sci

Stream Structure

A major in Physics in Advanced Science programs is comprised of 90 units of credit of courses as follows:

Stage 1
- PHYS1131 Higher Physics 1A (6 UOC) or PHYS1141 Higher Physics 1A (Special) (6 UOC)
- PHYS1231 Higher Physics 1B (6 UOC) or PHYS1241 Higher Physics 1B (Special) (6 UOC)
- MATH1131 Mathematics 1A (6 UOC) or MATH1141 Higher Mathematics 1A (6 UOC)
- MATH1231 Mathematics 1B (6 UOC) or MATH1241 Higher Mathematics 1B (6 UOC)

Stage 2
- MATH2111 Higher Several Variable Calculus (6 UOC) or MATH2117 Several Variable Calculus (6 UOC)
- MATH2221 Higher Theory and Applications of Differential Equations (6 UOC) or MATH2222 Theory and Applications of Differential Equations (6 UOC)
- PHYS2110 Quantum Physics & Laboratory (6 UOC)
- PHYS2120 Mechanics and Computational (6 UOC)
- PHYS2210 Electromagnetism and Thermal (6 UOC)

Stage 3
- PHYS3111 Quantum & Electrodynamics (6 UOC)
- PHYS3021 Statistical & Solid State (6 UOC)
- PHYS3031 Optics & Nuclear Physics (6 UOC)

PLUS 6 UOC from:
- PHYS3041 Experimental Physics A1 (3 UOC)
- PHYS3070 Experimental Physics A2 (3 UOC)
- PHYS3110 Experimental Physics B1 (3 UOC)

PLUS 12 UOC of other level III PHYS or MATH courses

Note: Students should take the higher versions of Mathematics courses where possible.

Science

Stream Structure

A major in Physical Science is comprised of 78 units of credit of courses as follows:

Stage 1
- PHYS1121 Physics 1A (6 UOC) or PHYS1131 Higher Physics 1A (6 UOC) or PHYS1141 Higher Physics 1A (Special) (6 UOC)
- PHYS1221 Physics 1B (6 UOC) or PHYS1231 Higher Physics 1B (6 UOC) or PHYS1241 Higher Physics 1B (Special) (6 UOC)
- MATH1131 Mathematics 1A (6 UOC) or MATH1141 Higher Mathematics 1A (6 UOC)
- MATH1231 Mathematics 1B (6 UOC) or MATH1241 Higher Mathematics 1B (6 UOC)

Stage 2
- PHYS2110 Quantum Physics & Laboratory (6 UOC)
- PHYS2210 Electromagnetism and Thermal (6 UOC)
- MATH2111 Several Variable Calculus (6 UOC) or MATH2117 Several Variable Calculus (6 UOC)
- MATH2221 Theory and Applications of Differential Equations (6 UOC) or MATH2222 Theory and Applications of Differential Equations (6 UOC)
- 12 UOC level II or III PHYS course

Stage 3
- 18 UOC of level III PHYS courses

Note: Students who wish to take honours in Physics should take 24 UOC of level III PHYS courses which include:
- PHYS3111 Quantum & Electrodynamics (6 UOC)
- PHYS3021 Statistical & Solid State (6 UOC)
- PHYS3031 Optics & Nuclear Physics (6 UOC)
Course Selection - PHYS2XXX Core

PHYS2110 (Sem1) Quantum Mechanics and Lab
Course Selection - PHYS2XXX Core

PHYS2210 (Sem2) Electromagnetism and Thermal Physics
Compulsory for Advanced Science students but recommended for everyone:

PHYS2120 (Sem1) Mechanics and Computational Physics
EVERY Year
PHYS2160 Astronomy
PHYS2410 Biophysics
PHYS2630 Electronics
PHYS2801 Atmospheric Science
EVERY Year cont.
PHYS3550 General Relativity (Sem1)
PHYS3040/3070/3110 Experimental Physics
PHYS3770 Lasers and Spectroscopy Lab
PHYS3780 Photonics Lab
Course Selection - PHYS33 Elective

Odd Years (Next Year)
PHYS3610 Computational Physics
PHYS3170 Cosmology and the Interstellar Medium (Honours Elective)
PHYS3710 Lasers and Applications (Sem1)
Course Selection - PHYS3 Elective

EVEN Years
PHYS3720 Optoelectronics (Sem1)
PHYS3410 Biophysics 2
PHYS3510 Adv. Mechanics, Fields and Chaos
PHYS3160 Astrophysics (Honours Elective)
Change the years to see if it's offered every/even/odd years.

AUG = Semester 2
As you can see, it is not offered in odd years.
Course Selection - MATH2XXX Core

- MATH2011/2111 (Sem1, 6UOC, Core)
  - Several Variable Calculus

- MATH2121/2221 in 2014 (Sem2, 6OUC, Core)
  - Mathematical Methods for Differential Equations

- MATH2521/2621 (Sem2, 6UOC, optional)
  - Complex Analysis
  - Optional, but interesting
Course Selection - More options

Other Useful Courses/Subjects?

- MATH2801/2901 (Sem1) Theory of Statistics
- MATH2501/2601 (Sem1) Linear Algebra - used in QM

See other maths courses e.g. Discrete, 3rd yr courses at http://www.maths.unsw.edu.au/currentstudents/course-homepages

Course Selection - Higher Maths?

Higher maths courses:
- Abstract concepts
- Focus on proofs (opposed to calculations as in lower courses).
- Required for Adv. Sci
- Useful for theoretical physics but not strictly necessary
Administrative Help

Sue Hagon
(“Physics Friend”)

- Timetable clashes
- Confusion with courses (when/which ones)
- Special Consideration
- Anything else - Solves most issues

If she isn't able to help you, she can point you to someone who is.
Timetabling Issues

Clashes:
Fill in 'Clash Approval Form' from the science student office/Sue Hagon.

- Physics courses: talk to Sue Hagon
- Maths courses: student office in red centre
- Other: contact lecturer/school office (This can be done via email)

Research Projects: 2nd year and beyond

Summer Vacation Scholarship: Faculty of Science or School of Physics.
- Apply at the end of second or third year
- Get paid to undertake a 6 week research project

https://www.physics.unsw.edu.au/current-students/vacation-scholarships

Other opportunities available:
- in semester such as PHYS4200 (http://goo.gl/PzpIOP).

Other
- uni’s/institutions, companies, govt orgs also offer such positions: eg ANSTO, CSIRO etc.
Textbooks - Suggestions

General/ First-Year:
- **Feynman Lectures on Physics**
  - Free access now: [http://goo.gl/CFW3Lt](http://goo.gl/CFW3Lt)
- **Serway & Jewitt, Physics for Scientists and Engineers**
- **Halliday - older, but useful problems**

Quantum and Electromagnetism:
- **Griffiths,**
  - *Introduction to Electrodynamics* (2nd & 3rd Yr)
  - *Introduction to Quantum Mechanics* (3rd Yr [+2nd])
- **Eisberg & Resnick, Quantum Physics of ...** (2nd Yr)
Mechanics:
- Fowles, *Analytical Mechanics* (2nd Yr)
- Goldstein, *Classical Mechanics* (3rd Yr)

Thermal Physics/Statistical Physics:
- Carter, *Classical and Statistical Thermodynamics* (Curmi/Gary’s reference for both courses)
Textbooks - Where to buy?

Cheap Textbooks Online:
Abebooks
- Lower quality international versions

Other
- Main library (Level 6) has a large collection.
- Free PDFs.
Any Questions?

http://xkcd.com/356/
The End

Good Luck with your studies!
